

# Cordless G-14 Smart Door Lock

Smart access door lock with fingerprint, password, phone app, magnetic card / NFC card, mechanical key backup, Type-C emergency power, 2.4GHz Wi-Fi connectivity, and Tuya app support.

Brand: Cordless

Model: G-14

Category: Smart Locks

## Overview

The Cordless G-14 is a high-quality smart door lock designed for modern residential, office, rental, and private-room access control. It provides multiple secure unlocking methods, mobile app control, activity visibility, and convenient emergency access while maintaining a clean handle-style design suitable for wooden and armored doors.

## Key Features

- Multiple unlocking methods: fingerprint, password / PIN, phone app, magnetic / NFC card, and mechanical key.
- Tuya mobile app support for smart access control and mobile unlocking.
- 2.4GHz Wi-Fi connectivity for connected smart-lock operation.
- Type-C emergency power port for emergency power supply when batteries are depleted.
- Powered by 4 x AA batteries for long-lasting operation.
- Compatible with wooden and armored doors according to Cordless published product information.
- Multiple-user access to share access with family members, staff, or authorized users.
- Activity notifications and access logs through the smart-lock ecosystem where supported.
- Auto-lock and temporary passcode functions for practical daily security management where configured in the app.
- Professional installation support available through the vendor service flow.

## Technical Specifications

Product Name	Cordless G-14 Smart Door Lock
Brand	Cordless
Model Name	G-14
Product Type	Smart Door Lock / Smart Access Control Lock
Unlocking Methods	Fingerprint, Password / PIN, Phone App, Magnetic Card / NFC Card, Mechanical Key
Mobile Application	Tuya App

Wireless Connectivity	2.4GHz Wi-Fi

## Applications

- Residential apartment and villa doors.
- Office doors and management rooms.
- Rental units and serviced apartments.
- Private rooms requiring controlled keyless access.
- Small business access points requiring modern smart entry control.

## Important Notes

- No official downloadable PDF datasheet was found during preparation; this datasheet was created by Connect Gates from Cordless published product information.
- Exact dimensions, mortise size, operating temperature, maximum user capacity, and IP/weather rating were not clearly published in the checked official product text, so they should be confirmed before final project submittal or quotation.
- Some marketplace listings refer to the product as CL-14 / CL-G14; the official Cordless product page title is G-14.

## Connect Gates Recommendation

Recommended for customers who need a practical and cost-effective smart lock with the essential access methods: fingerprint, PIN, app, card, and backup key. For projects that require camera, 3D face recognition, palm vein, or internal screen, select a higher Cordless smart-lock model instead.
