

Premium-Line 121721110 USA Face Plate

90° Entry, Integral Molding, Shutter Type with Icon, 1-Port, White

Product Overview

Premium-Line 121721110 is a USA style single-port face plate designed for professional structured cabling outlets. It supports snap-in keystone jacks and is suitable for office, commercial, data network and telecom wall outlet installations.

Brand	Premium-Line
Part Number	121721110
Product Type	USA Face Plate / Wall Outlet Faceplate
Port Count	1 Port
Cable Entry	90° Entry
Design	Integral molding, shutter type, with icon
Dimensions	70 x 115 mm
Color	White
Material	High-impact fire-retardant ABS resin
Application	Structured cabling outlets for network, data and telecom installations

Key Features

- USA style face plate for structured cabling and telecom outlets.
- Single-port design with shuttered dust cover and printed icon for clear identification.
- 90° cable entry and integral molding construction.
- Keystone jacks can be snapped in and out easily for flexible installation.
- Suitable for surface, drywall, baseboard and modular furniture installations.
- Hidden mounting screws and clear outlet ID label support professional finishing.
- Fire-retardant ABS resin construction for reliable daily use.
- RoHS compliant according to Premium-Line catalogue information.

Technical Specifications

Part Number	121721110
Product Description	USA Face Plate, 90° Entry, 70 x 115, Integral molding, with icon, 1-Port, white, shutter type
Face Plate Standard	USA / 70 Type Face Plate Series
Number of Ports	1 Port
Entry Angle	90° Entry
Mounting	Wall outlet / surface / drywall / baseboard / modular furniture
Compatibility	Premium-Line and standard snap-in keystone jack modules
Dimensions	70 x 115 mm
Material	ABS resin, fire-retardant, high impact
Color	White
Accessories	Mounting screws and outlet ID label area
Compliance	RoHS compliant

Installation & Use

- Designed for use with compatible keystone jacks in copper data and voice cabling systems.
- Can be used in office work areas, data outlets, telecom rooms, retail spaces and commercial network points.
- The shutter helps reduce dust ingress when the port is not in use.
- The icon and label area help identify the outlet during maintenance and future cable tracing.

Applications

Office network outlets	Commercial buildings
Data and telecom points	Retail and service areas
Structured cabling installations	Modular furniture network access
Renovation projects	IT infrastructure fit-out

Source Notes

This datasheet is prepared by Connect Gates based on the available El Kayan product listing and Premium-Line catalogue information for part number 121721110. Product images, packaging and minor design details may vary according to stock batch or manufacturer revision.
