

# Cordless CL-Y15 Smart Door Lock

Smart Door Lock with Intelligent Camera, Motion Detection and 2-Way Video Call

## Overview:

Cordless CL-Y15 Smart Door Lock is a smart access control lock designed for modern residential and light commercial doors. It combines intelligent camera monitoring, motion detection, 2-way video communication, and multiple unlocking methods to provide secure and convenient access management for apartments, villas, offices, and private entrances.

## Key Features:

- High-quality smart lock with intelligent camera for visitor monitoring.
- Motion detection support for enhanced entrance awareness.
- 2-way video call function for remote visitor communication.
- Multiple unlocking methods including 3D face recognition, fingerprint, password / PIN, magnetic card, mechanical key, and Tuya Smart App control.
- Smartphone-based access management with real-time notifications and activity logs.
- Auto-lock function for improved daily security.
- Temporary passcode creation for guests, visitors, or short-term access.
- Suitable for smart access control applications in homes, villas, apartments, and offices.

## Technical Specifications:

Product Name	Cordless CL-Y15 Smart Door Lock
Model Name	CL-Y15
Brand	Cordless
Product Type	Smart Door Lock / Smart Access Control Lock
Main Functions	Intelligent Camera, Motion Detection, 2-Way Video Call, Smart App Access
Unlocking Methods	3D Face Recognition, Fingerprint, Password / PIN, Magnetic Card, Mechanical Key, Tuya Smart App

App Platform	Tuya Smart App / Smart Access App Control as published by reseller information
Access Features	Temporary passcodes, activity logs, real-time notifications, auto-lock
Door Application	Residential and light commercial doors
Category	Smart Locks / Smart Access & Door Locks
